

EXPERIENCE THE DIFFERENCE

All our products are designed, built and distributed to out-perform and out-last the competition. Our focus is on saving you money, on protecting your people, and on creating safer and healthier facilities.

Our attractive range of products, dispensers and refills answer every hand hygiene requirement, in every unique situation.

**PEACE OF MIND GUARANTEED AS ALL OUR
DISPENSERS COME WITH A LIFETIME WARRANTY**

RCP offers a lifetime warranty on all washroom dispensers against faulty workmanship and failure in operation when the products are used as directed. Warranty does not apply to products that have been vandalised, or from misuse.

AIR CARE

Enhance the perception and reputation of your facility with RCP's full line of air care solutions. Our dispensing solutions blend into the washroom environment, attack odours at the source, and release fresh-smelling fragrances to create the ultimate sense of cleanliness.

DISPENSING SOLUTIONS

One of the first things people notice when entering your facility is the smell. Whether it is the lobby area or a washroom, high quality Air Care products will give your employees and visitors a cleaner and safer feeling. RCP's passive and active Air Care Systems deliver cost-effective odour control with flexible programming, a variety of refills and world class reliability.

FRAGRANCE

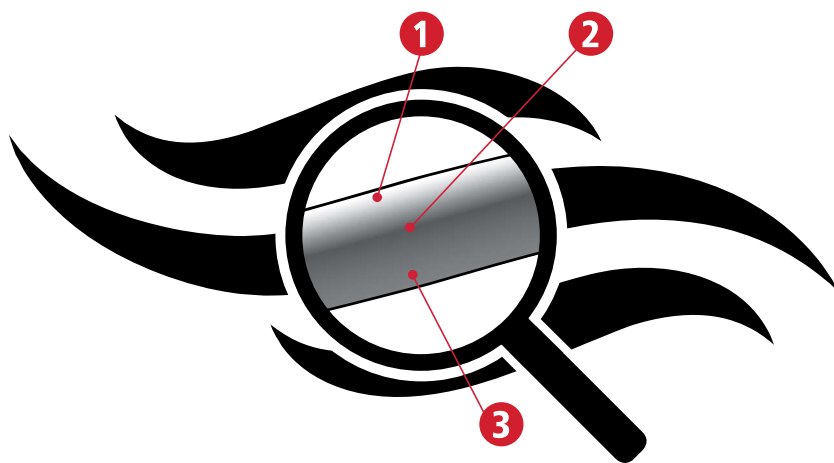

EDUCATION

Fragrance can reinforce the feeling of cleanliness and freshness in the washroom; 77%* of facility users that experience a business with unpleasant washroom smells leave with a negative perception of the business. RCP offers a full line of air care options that can help you create a positive experience.

LEARN THE COMPOSITION

Fragrances are made up of three main “notes” that help to create a blended scent.

- 1 TOP NOTES:**
Also known as “head notes,” serve as the first impression you get from the fragrance.
- 2 MIDDLE NOTES:**
The “heart,” or main body of the fragrance, that gives the fragrance its character.
- 3 BOTTOM NOTES:**
The base, which tends to be heavier and fuller, giving the fragrance its strength.

KNOW THE FRAGRANCE FAMILIES

RCP's fragrance options fall within six distinct fragrance families, based upon their scents:

FLORAL

Characterised by:
Radiant scents, such as rose, jasmine, and violet; green scents, which are reminiscent of freshly cut grass, leaves, and stems.

FRUITY

Characterised by:
Luscious fruity scents, such as apple, pear, plum, mango, peach, and melon.

CITRUS

Characterised by:
Invigorating and uplifting scents, such as lemon, mandarin, and other citrus oils.

HERBAL

Characterised by:
Powerful, aromatic herbal scents, such as rosemary, mint, coriander, lavender, and sage.

FOUGÈRE

Characterised by:
Masculine scents, such as lavender, moss, and woods.

GOURMAND

Characterised by:
Mouth-watering, edible scents, and sweet, comforting vanilla.

WHAT SETS RCP FRAGRANCES APART

Traditional air fresheners only camouflage malodours; all of RCP's fragrance options have Microtrans[®] technology, which attacks and effectively eliminates unavoidable odours in the washroom. Thus, completing two jobs in one – removing odours and creating fresh-smelling environments.

MICROTRANS ODOUR NEUTRALISER TECHNOLOGY

Locks onto malodour molecules to neutralise the odour.
